

# CHIOMA UBOGAGU

## SOFTWARE ENGINEER

### PROFILE SUMMARY

A dedicated, knowledgeable full stack software engineer seeking an opportunity to apply expertise in developing, designing, and scaling various applications that ensures a trustworthy and positive experience for users. An enthusiastic, hard-working team player with strong communication skills refined from a seven year professional soccer career both domestically and internationally. A proud, passionate Stanford University alumnus that loves building relationships and connecting with people.

### WORK EXPERIENCE

#### Frontend Developer, Simpleview

Remote \* September 2021 – Present

- Responsible for setting up, modifying, and building database driven internet applications
- Required an advanced level of HTML, Server Side Programming concepts, T-Sql, JavaScript, and a good understanding of MongoDB.
- Responsible for integrating and building error free applications with a high level of quality while maintaining on time delivery of all tasks.
- Completion all programming tasks while following company code standards
- Contributed to the development and maintenance of the company starter templates, internal tools, and component libraries

#### Professional Soccer Player

Global \* March 2015 – 2021

- Arsenal (England), Real Madrid (Spain), Brisbane Roar (Australia), and Orlando Pride (USA)

#### Video Editor, Freelance

Pacific Palisades, CA \* October 2017 – April 2018

- Edited footage for writer Erin Dignam (Submergence, House of Cards, etc.)

#### Intern, PDI DreamWorks Animation

Redwood City, CA \* Jan 2014 – April 2014

- Involved in the entire process (animation, production, development, marketing, and visual effects) of creating a 3-D animated feature film

### PERSONAL PROJECTS

#### My Portfolio

[Live Site](#) | [GitHub](#)

- Designed, developed, and deployed an Angular based app that hosts projects
- Express backend that handles form submissions and other services

#### Collegebook

[Live Site](#) | [GitHub](#)

- Python based app inspired by Facebook that allows users to connect with people and friends. To view an existing login: username: [chioma@hireme.com](mailto:chioma@hireme.com) password: 123456789
- Seamless UI with CSS, JavaScript, and Bootstrap in browser contexts
- Implemented AJAX and JavaScript to run, display, and update users' notifications
- Included client-side validations with HTML and server-side validations with Bcrypt for enhanced security on registration and login page
- Incorporated a photo uploading feature using PostGresSQL and Cloudinary
- Interactive features such as posting, commenting, liking, and unliking
